A reliable, hardworking web developer capable of working alongside others to create high quality websites. A quick learner who is always following the latest industry trends and is capable of developing responsive, user friendly websites. Currently looking for a junior position in an innovative company looking to attract ambitious and talented individuals.

Projects I've Worked On

- Music Label Manager - an online game that allows users to create and take charge of their own record label, signing real life artists. Built on top of a university project with the MEAN stack.
musiclabelmanager.com
- Teen Talks - A Wordpress site for online teenage magazine Teen Talks, built on top of a template.
teentalks.co.uk
- Parkside Works - Built with other people at BCU Codes, this responsive Wordpress site allows the project's manager large amounts of customisation.
parksideworks.com
- Artist Tracker - Using several music service APIs, this app allows you to look up an artist, album or track and see the stats on the relevant music services.
